The cases of the two 16-year-old

Sunday night and stole a sum of  
money in excess of \$1,000, and who

As far as can be determined,

And his neighbor, the Deacon, went  
by,  
"In spite of my bank stock and real

You are better off, Deacon, than I.  
"We're both growing old, and the  
end's drawing near.  
You have less of this world to resign,  
But in Heaven's appraisal your assets,  
I fear,  
Will reckon up greater than mine.  
"They say I am rich, but I'm feeling  
so poor.  
I wish I could swap with you even;  
The pounds I have lived for and laid  
up in store  
For the shillings and pence you have  
given.  
"Well, Squire," said the Deacon, with  
shrewd common sense,  
While his eye had a twinkle of fun,  
"Let your pounds take the way of my  
shillings and pence,  
And the thing can be easily done."

**Extend Wharf Rights**  
Navy Leases Properties On  
South Side of Tillson  
Wharf

Capt. Sumner P. Whitney, super-  
intendent of the F. J. O'Hara Sons  
Inc. fish plant on Tillson avenue,  
announced this morning that the  
Navy has leased certain wharfage  
rights from the company for use  
in connection with the new naval  
base.  
The property leased extends  
along the southern side of Tillson  
avenue from the line of Tillson  
wharf, now owned by the Navy,  
to the property owned by the  
American Oil Company.  
A present occupant of a part of  
the dock is the Matinicus Lob-

## WITH AN AMBITIOUS MOTTO

### Fifty-Four Boys and Fifty-Four Girls Gradu- ated From Rockland High School Last Night

To the stirring march "Flag of  
Victory," 108 members of the class  
of 1942 evenly divided as to sex,  
graduated last night in impressive  
exercises held at the Community  
Building, led by their marshal,  
Harrison Dow. The timely topic  
"Defense for America" was dis-  
cussed in all its important phases  
by the honor essayists, proving  
that not only have these young  
people learned well their lessons  
in books, but have already taken  
on their shoulders the responsi-  
bility of working for a brighter  
future.

The public address system, in-  
stalled some years ago by the  
Rockland Lions Club was so per-  
fectly adjusted last night that  
every word could be distinctly heard  
throughout the hall.  
John Storer, valedictorian of the  
class, went in February to the Uni-  
versity of Chicago, where he is  
studying as a pre-medical student.  
Miss Nancy Howard delivered the  
valedictory in his stead owing to  
his expected absence. Storer,  
however, was able to arrive and  
take his place with the graduates.

Mayor Edward R. Veazie, who  
presented diplomas to the gradu-  
ates, expressed the feelings of all  
when he said "We must realize as  
never before how much America  
owes to these young men and wo-  
men, and how dependent on youth  
we are, as they go forth to take  
up the responsibilities of citizen-  
ship. It is our youth that have  
shattered the hopes of Berlin and  
Tokyo that America could not  
and would not fight—these gallant  
youngsters that are heroes of the  
present world conflict. With such  
youths as these on our side, we  
cannot lose!"  
The class colors were carried out  
in the scarlet banner on which was  
written with silver, the motto,  
"Today we follow, tomorrow we  
lead." Carnations and white brid-  
al wreath complimented the effect

on a background of a scarlet cov-  
ered floor.  
Music had its happy place on  
the program, with the High School  
orchestra offering selections from  
Ascher's Album of music. Dudley  
Harvey, a member of the senior  
class, played a trumpet solo "Grand  
Russian Fantasia," accompanied  
by Mrs. Faith Berry. The class  
ode was the finale of the evening,  
the music of which was written by  
Mr. Harvey and the words by Miss  
Nancy Howard.

Invocation was offered by Rev.  
Ernest O. Kenyon, and the benedi-  
ction by Rev. Roy A. Welker.

IMPORTANCE OF HEALTH

Ernest Dondis  
In his role of salutatorian Ernest

the Army, the Navy, war workers  
or civilians, health and recreation  
are essential.

In order for any nation to be a  
healthy nation, it must learn to re-  
lax, learn to play, learn to use its  
leisure time. Despite the shortages  
which have affected the various re-  
creational facilities—rubber, trans-  
portation, metals—people should  
learn to explore other ways in which  
to play. First, and most neglected,  
is walking. It had so nearly become  
a lost art that people who like to

## A. EVERETT LIBBY

Candidate For County Commissioner

Republican Voters:—  
For a great many years it has  
been the custom for one of the  
County Commissioners of Knox  
County to come from either  
Vinahaven or North Haven.  
This custom has been broken  
through the death of Foy W.  
Brown of North Haven, so that  
now all three Commissioners  
are from towns surrounding  
Rockland, and the Island  
Towns are without this direct  
representation.  
We believe the previous Com-  
missioners elected from these  
Islands have been a real ben-  
efit to the County. We also be-  
lieve that any candidate who  
has been chosen and supported  
by our Island citizens will fol-  
low along the same lines. We,  
therefore, believe we are just-  
ified in selecting, and trying to  
elect, a candidate for County  
Commissioner.  
Our choice for this candidate  
is A. Everett Libby of Vinal-

haven. Mr. Libby is 45 years  
old, married, and has two chil-  
dren. He is a native of Vinal-  
haven and has lived here the  
greater part of his life. Al-  
though his main occupation is  
Insurance, he is also Town  
Clerk, Chairman of the Repub-  
lican Town Committee, and an  
active member of the Masonic  
Lodge and Order of the Eastern  
Star, Lions Club, American Le-  
gion, etc.  
In bringing this matter to  
your attention, we wish not  
only to stress our desire for  
representation on the County  
Commission, but to leave with  
you the fact that it is our be-  
lief Mr. Libby is well fitted for  
this office, and his ability and  
aggressiveness are such that  
the County would do well to  
have him as Commissioner.

### Book Review

(By K. S. F.)

And Now Tomorrow. By Rachel Field. Published by The Macmillan Company, New York.

Sorrow fills the heart when the reader realizes that "And Now Tomorrow" is the last of Rachel Field's delightful books. She loved Maine, wrote about Maine and said "The beautiful wooded island off the coast of Maine more than any one thing in my life has helped me with my writing, for it means roots and background to me." Sutton Island was the place she loved best. She died in March of this year in California; was the wife of Arthur D. Pederson, and they had one adopted child.

A brilliant career is closed with one of the most thoughtful, soul-reaching and unusual reviews of seeing eyes that has been written. This book is really founded on a Latin phrase, translated it tells one, "Perhaps it will be pleasant to remember even these things."

And this flow of thought, that came about from "attic moments," where all the treasure trove of past years was stored, gave vent to understanding relationships, and personal happiness that could never be blotted out of one's heart of heart. "Time out of Mind" and then the brilliant success in "All This and Heaven Too" with its tensely dramatic traditions of intriguing Maine and world events, so skillfully woven into historical review, prepares one for the treat in store for the reader of this her last chapter in the written word.

A rare book that paints in clear pictures periods of life in sedate thoughtful memories. Dramatic events, love that holds and strength of character, are interwoven with successful naturalness and rare insight of sensitive hearts.—K. S. F.

In doing so, having intended to take Route 1 to Calais and took the wrong fork of the highway beyond Ellsworth which resulted in a dead end on Mt. Desert Island.

Finding themselves in Bar Harbor, they abandoned the truck, which was found by Chief of Police George Abbott, who in turn notified the Rockland police.

Chief Mansfield and Patrolman Christofferson went to Bar Harbor in search of the boys and trailed them to Bangor where the search came to an end. The boys' story revealed that they took a bus from Bangor to Boston, passing through Rockland on the trip.

The police alarm, which was broadcast throughout New England, brought results when a Boston rooming house owner reported to the Boston police that two boys who had taken rooms were acting suspiciously. Upon receiving information that the boys were in custody, Mansfield and Christofferson left at 5 a. m. Wednesday for Boston and returned them to Rockland Wednesday night.

In municipal court yesterday the attorney for one of the boys asked that the case of the one he represented be continued for 10 days or two weeks to allow the family to make provisions to place him in a home of his own faith.

The boys had spent only a small portion of the money they had stolen (about \$75) all of which had been spent on clothing and food. A sum in excess of \$1,000 was recovered by the police.

One boy is held in \$1,000 and the other in \$500 bail.

The laws of Maine will not permit the publication of the name of a person under 17 years of age who is arrested and before the court.

#### GENEROUS BOND BUYERS

Maine's motto "Dirigo" was again stressed during the month of May when it led all other New England States in the U. S. War Savings Bond Drive, and finished eighteenth among the Nation's 54 States and possessions. Its quota was \$3,295,000, and its purchases amounted to \$4,146,000, or 125 percent of the quota. The quota for the nation was over-sold by 105 percent, the quota being \$60,000,000 and the purchases amounting to \$63,436,000. Commenting upon the fact that the goals for June and July are somewhat higher Dr. Clinton A. Clauson, State Bond administrator, says:

I feel sure you will give every ounce of effort that is possible to assist in promoting this all-out drive for Victory. You are doing a splendid job and I want you to know that I am grateful. Let's put Maine right up in the front row in June. It led all of New England in May. Maine can do it again this month, and Maine—through your untiring efforts—can be among the toppers, nationally!

#### WOULD YOU CARE TO SWAP

If we needed anything further to convince us that the United States is still the best country on the globe in which to live it is furnished by the developments in the Czech village Lidce, where the Nazis have harbored the assassins of Heydrich, the hangman. The women and children were deported, and the village was then razed, leaving nothing but rubble—and the grief of the thousands who once had peaceful, happy homes there. Those of us who are inclined to be rebellious in the rationing program in the United States, should consider the question of how they would like to exchange their lot for that which the people of the German occupied countries are having.

#### PIPING OIL FROM TEXAS

Good news came out of Washington yesterday in the form of an announcement that the War Production Board has approved the immediate construction of 550-mile oil pipeline from Longview, Texas, to the Salem, Ill. area. The line will have a capacity of 250,000 barrels a day of either gasoline or crude oil. Chairman Donald M. Nelson of the War Production Board, said, however, it probably will be used primarily for crude or fuel oil rather than gasoline.

The daily requirements of the East Coast, based on continued rationing, are estimated at 1,350,000 barrels of petroleum products, including both fuel oil and gasoline. At present the East Coast curtailment area is receiving 1,165,000 barrels a day.

#### AT THE DIAMOND JUBILEE

Only four Maine Civil War veterans attended the Department Encampment in Bangor this week, but the photograph published by the Bangor Daily News shows them surprisingly alert and erect, finding doubtless much inspiration in the fact that it was the Diamond Jubilee of the organization. What it means to be a survivor of the War of the Rebellion may be judged from the ages of the members of this quartet—

Otis L. Coffin, 98, of Freeport, commander; George H. Jones, 92, of Oxford, junior vice commander; George F. Stuart, 96, of Freeport, senior vice commander; and John W. Palmer, 95, of Waldoboro, assistant adjutant general.

#### A GOOD WILL GIFT

Friends of that highly desirable and highly deserving institution known as the Good Will School, at Fairfield, will be well pleased to learn that it will receive \$10,000 from the will of Louis W. Wolf, a Hoboken importer, who spent his Summers in the town of Monson. Such unexpected windfalls are very heartening to those who are carrying on this fine work.

#### THE TONNAGE WAR

In one week The Associated Press has added 18 vessels, or rather more than two a day to its tabulation of announced merchantship losses in the western Atlantic. This figure, like the more optimistic statistics given out some days since by the naval authorities, does not mean much in itself; some currently reported sinkings took place weeks ago, some were of small vessels or involving special circumstances saying little as to the progress of the general campaign. It is still a reminder that while the Navy has been doing its job with magnificent skill and success in the mid-Pacific, it has yet to cope with the novel, difficult and less spectacular business of the submarine war off these coasts.

It may have been making rapid progress in recent weeks. We do not know. Secrecy forbids it to share either its successes or its defeats with the layman. But we do know that the daily announcement of sinkings goes on, and that if really original and energetic methods are being employed there is still no great evidence of the fact. One of our correspondents, in a letter on this page yesterday, suggests that there is still too much routine in the Navy's campaign. Its officers are insufficiently "small-boat minded;" they are trained to the big ships and classic apparatus of naval war and are not quick to appreciate what can be done with improvisation, originality, unusual expedients. There are many able naval officers working themselves to exhaustion over the problem, only to run up against conventional or incompetence in other of their colleagues. The Navy's standards for boats, building methods and men are too rigid at times, or too rigidly adhered to when changed conditions demand new solutions.

The problem itself is difficult; many proposed solutions are half-baked or impracticable; the Navy has certainly been achieving too much to be put under any blanket indictment. Yet the tonnage war has not been going well, and the public would be happier if it could have some more tangible evidence that real generalship and intelligent vigor are being put into it.—Herald Tribune.

## Pirates Play Sunday

Return From Prison Game To Meet Strong Warren Team At 3.30

The Pirates who were forced to quit last Sunday after the third inning of their game with Camden whom they were leading by a 10-3 score will play the Warren locals at Community Park Sunday at 3.30. This Warren club was defeated by the Pirates Wednesday at War-

ren in a well played game 4 to 1. This even the series between the two clubs as the Pirates were beaten in the first game by a 2-1 score 10 innings game three weeks ago.

Wednesday's game was featured by the fine pitching of Chuck Ellis who held the Warren team to three hits over nine innings while every Pirate got one hit except Karl who got two.

Sunday at Thomaston the Pirates play at 12 in the Prison against the strong team that represents that institution. This game

is looked forward to by the Pirates who not only want to make up for a 5-3 defeat pinned on them earlier in the season, but also to hear the Bronx cheering section and coaching from the side by the guys who know their team's players weakness and are not afraid to tell it and how!

Tonight there will be a practice session at 6 in which there will be a game played between candidates for the various positions and the management will be able to see some of the stuff the prospective pitchers talk about so easily and readily.

Syria was made an independent state by the Treaty of Sevres in 1920, and a mandate over the country was given to France by the Supreme Council of the Allied Powers.

# GET RID OF ONE Wartime Worry

Put Your Valuables in a Safe Deposit Box

★ In times of excitement, we are all likely to do strange, senseless things. Under conditions as they are today, it is easy to become careless. Important papers may be lost, destroyed.

To all the usual dangers, others may be added. Almost everyone needs safe deposit protection these days. Take care of your U.S. Defense Bonds, tax receipts, military documents, and the like.

It will save you worry and it may save you from loss if you rent a safe deposit box now.

"Who's afraid?"... Nevertheless, the normally self-sure Red Skelton seems a bit on edge in this romantic scene with Eleanor Powell in M-G-M musical "Ship Ahoy." Maybe it's because he suspects Miss Powell, in the picture, of being an enemy agent. It is one of Skelton's first romantic roles and said to be a laughiest from start to finish.

Spring flowers in class colors, cerise and white.

Invocation was offered by Rev. W. J. Hutchinson, who also gave an address of advice and counsel which carried an inspiring message to the members of the class.

Rev. Charles Mitchell delivered the impressive baccalaureate sermon, his theme, "He that overcometh shall inherit all." The appropriate anthem by the vested choir included an incidental solo by H. L. Coumb.

Benediction was pronounced by Dr. Hutchinson. Recessional "Aida" was played by the organist.

## REALM OF MUSIC

by Gladys St. Clair Heidat

It has been proposed to establish a permanent fund for the MacDowell Colony at Peterborough, N. H., a movement that should enlist the widest and most wholehearted support. Literally hundreds of creative artists have flocked here to work at musical scores, books, art projects, etc. It is all too easy to take the work of the Colony for granted, but had it not been for the untiring efforts of Mrs. Edward MacDowell and the loyal organizations which have aided her, the Colony would never have been able to maintain itself. The national music fraternity, Sigma Alpha Iota, has made it a major objective of its 1942 program to collect funds to endow the cottage presented by the fraternity to the MacDowell Colony in 1918, known as Pan's Cottage.

Rev. Charles Mitchell delivered the impressive baccalaureate sermon, his theme, "He that overcometh shall inherit all." The appropriate anthem by the vested choir included an incidental solo by H. L. Coumb.

Benediction was pronounced by Dr. Hutchinson. Recessional "Aida" was played by the organist.

Mrs. Ernestine Dodge and daughter Mary of Schenectady, N. Y., are guests for the Summer of Mr. and Mrs. John P. Munroe.

**ROCKVILLE**  
Miss Vivian Ojala of Camden and Miss Helen Ojala of Rockland spent a day recently with their parents Mr. and Mrs. William Ojala.

Another year of school has been completed and was given a fitting close with a picnic on the school grounds Thursday. Although it was not possible to go to the sea shore as in previous years, there was everything good to eat, even ice cream.

Mrs. Almon Cooper is having her house painted.

Mrs. Margaret Carr, teacher of the Rockville school, was dinner guest Wednesday of Percie Fiske and Vestina Fiske.

The school children held a non-day service at the church Wednesday in place of the final session of Bible work. Prayer was offered by Rev. C. V. Overman. Achievement cards were awarded by Miss Hazel Lane to Percie Fiske, Esther Hall and Vestina Fiske for completion of all Bible readings for the year.

A special certificate of honor was given to the school as all in the fourth grade had done the work. The Rockville school had previously received a plaque awarded because its religious scrapbook was given first place among those of primary schools. The school children have had the church open six times within a year.

Mrs. Mary Wood of Saco was week-end guest of Mrs. John S. Ranlett.

**LINCOLNVILLE**

Mr. and Mrs. Ozgen will be at home after June 23 at 128 Center street, West. Mrs. Ozgen is visiting Mrs. Edith Overlock for a few days.

Mrs. Diana Pitts and daughter Josephine entertained at dinner guests Wednesday night Miss Helen Lowell and Mrs. Ethel Spear.

An excellent dinner was arranged for the annual meeting of the High School Alumni Association to be held June 17 at Masonic hall. The graduating class will be honor guests. At 6:30 a banquet will be served with Harbor Light Chapter O.E.S. as caterers. Bertram Gardner, president will preside at the business session and roll call of members will be read by Miss Mildred Graffam, secretary, with one member from each five-year class beginning with 1887, giving special responses. Musical numbers will include group singing, vocal solo by Donald Welt and piano solo by Mrs. Georgia Rhodes, and Miss Josephine Pitts, Frank A. Winslow, editor of The Courier-Gazette, whose reputation as a highly entertaining lecturer is well known, will be the guest speaker. An unusually large attendance is expected.

subject "Thanksgiving and Gratitude."

## THE CAMDEN BAND

The Camden High School Band of which Roger Calderwood, formerly of Portland is director, will pass the week-end in Portland. This trip is being made by the band instead of the one to the New England Music Festival planned at Providence, R. I. The group will attend the Glenn Miller Concert Saturday at City Hall and will participate in the Flag Day parade Sunday. Plans also have been made for the group to broadcast a program over Station WCHS at 5:30 p. m. Saturday. Mr. Calderwood will be a guest of his parents, Mr. and Mrs. Guy Calderwood of Concord street.—Press Herald.

column of "human interest" in a metropolitan newspaper.

Should we be too lax in the four freedoms mentioned by the President in his message of Jan. 6—freedom of speech, freedom of worship, freedom from want and freedom from fear. But—should we be lax in our protection of these freedoms, too sparing in our efforts, they will be ridden down by the four horsemen of the Apocalypse—war, pestilence, famine, and death. They go forth together. First, war—then pestilence, famine, and finally the one who outrides all others—death. Which will it be—the four freedoms or the four horsemen?

THE RED CROSS: ITS SOURCE

Our Army today has come a long way since July 2, 1775 when George Washington, under the historic elm on Cambridge Common, took command of the Continental Army, said Walter Butler. As Washington surveyed his new army he saw only a band of patriots who had no discipline, no fighting machine—come down from the hills to see the excitement and get a shot at a Red Coat. In this present crisis any such exhibition on the part of the Army would not be tolerated. Our Army is disciplined and Gen. Douglas MacArthur's band in the Philippines proved that it is an A-1 fighting machine.

Today as never before we must support the Army and all it stands for, because our cherished liberties have never been more seriously threatened. Our coastlines must be defended from invasion. We must keep the sky lanes open, for the air-craft branch of the Army is growing in importance with each tick of the clock. We must dig in and fight to protect the priceless heritage handed down to us by our forefathers. You and I know that Americans never shirk duty when it calls and now duty is calling to every one of us; so—all out America! to protect those three most precious words in the world—liberty, equality and fraternity.

THE NAVY: DEFENSE ON SEA

In the first World War the navy's chief duty was the conveying of merchant and troop ships to Europe. It was during this war, said William Hopkins that the destroyer proved its worth with its speed, maneuverability and economical cruising. The present war has demonstrated that a navy cannot function without adequate air support, the British learned this to their sorrow when they lost the Prince of Wales and the Repulse.

As for the Pearl Harbor attack, the less said about it the better. The responsibility can be placed on one thing, lack of co-operation. If the army and navy had co-operated to a fuller extent the damage and loss of life would have not been so great. If we have learned the lesson taught by this disaster, maybe it is when it, but if we haven't we had better wake up before it is too late.

This blot on our navy's history has been partially wiped out by the battle in the Coral Sea where an Allied fleet of six ships made up largely of American fleet units, after days of battle, routed the Japanese fleet.

THE MARINES: THEIR WORK

Since Nov. 10, 1775, when Congress authorized the Continental Marines, this land-fighting arm of our Navy has been a hard-hitting, fast acting unit upholding its motto "Semper Parati," meaning "Ever Faithful." Efficiency, said William East, has been shown by the Marines in the past in all forms of warfare; in the present with the new planes, guns, tanks, para-troops, and tactics which modern warfare requires. They have an historic past to be proud of and at present share a great responsibility with the Army and Navy, the defense of America. Wake Island shows they are taking this responsibility seriously and keeping up the Marine traditions.

America and democracy are putting much faith in the Marines and their co-ordination with our other armed forces. Still keeping their honor gleaming and America's trust in them true, the Marines guard our freedom and democratic rights as the knights of old watched over the Holy Grail.

INDUSTRY'S RESPONSIBILITIES

Industry in itself is a combination of three things—capital, the physical facilities to produce, labor, a very vital part of productive power, and management, the organizing and directing force. No one of these factors can work effectively without the complete cooperation of the other two. In order to secure our goal of all-out production, these three things—capital, labor,

and management must be unified, said Lucille Stanley.

American industry, in buckling down to business, has had to reorganize. Expanding has not been the complete answer to our problem—it was found necessary to convert.

The opportunity of helping our country by shouldering responsibilities and working together has never been greater. In a labor-management meeting, Dec. 23, it was agreed that there should be no more strikes or lock-outs, that all disputes should be settled by peaceful means, and that the president should set up a proper war-labor board to handle these disputes. In this way our industrial disputes may be settled without hindering production.

Dougherty, '21; executive committee, George H. Thomas '11, Leroy S. Alley Jr. '28 and Seraphine K. Paulkingham '33.

CLASS ODE

Music by Dudley Harvey  
Words by Nancy Howard

Through the long years at Rockland  
High  
Through the Spring of life  
We've struggled to learn; we have  
cast our die,  
And victory is ours today!

Hearts are high, for the battle's won.  
School days over, we go forth  
To set new goals, not to stop till  
We're done  
To champion the cause of truth.

To all our friends goodbye we say,  
Teachers, fond farewell to you,  
We'll meet the problems of life's way;  
We'll face the dawn of Sunday  
When we've scattered far and wide  
Looking back we'll ever know  
Sincerely we said with pride  
"Today we follow Tomorrow we lead"

The class of 1942 had the following officers: President, John Storer; vice president, Andrew Coffey; secretary, Lucille Stanley; treasurer, Jean Calderwood.

Under the supervision of Supt. Alton W. Allen and with Joseph E. Blaisdell continuing his splendid work as principal the affairs of Rockland High School have spent for smoothness and progress. On the school faculty were the following teachers:

How Stonington and Swan's Island Keep In Touch With Mainland

Mail, passenger and freight between Stonington and Swan's Island, is now being transported by Eugene Norwood of Swan's Island in his 45 foot power boat following the discontinuance of the steamboat service from Rockland. The mail will leave Swan's Island at 10 a. m. each week day and on the return leave Stonington at 1 p. m.

Freight from Rockland will still come to the steamboat wharf in Stonington although by the longer route instead of by steamboat as heretofore. R. K. Barter has leased the wharf and will use the building as a terminal for his motor truck service from Rockland.

Reuben Cousins who handled the business there for many years for the steamboat company will continue to do the same for Mr. Barter.

The Barter truck made its first trip to Rockland today and will continue to make the round trip every week day, leaving Stonington at 4 a. m. and arriving in Rockland about noon.

Arthur Barter of Stonington completed arrangements with the Public Utilities Commission which will enable him to start his bus route, Stonington to Bangor.

The trips start from Stonington at 7 o'clock, arriving in Bangor about 9. Returning, leave Bangor about 4 p. m., arriving in Stonington about 6. Connection will be made in Bangor with the State of Maine Express.

Towns in between which will be served are Deer Isle, Sargentville, the Brooksville, the Penobscot, No. Castine, Orland, Bucksport, So. Orrington, Orrington, South Brewer and Brewer—From the Deer Isle Messenger.

## At The High School

By The Pupils

One hundred fourteen seniors and guests sat down to the annual Senior Class banquet, at the Hotel Rockland, Tuesday night. Seated at the head table were Supt. and Mrs. Alden Allen, Principal and Mrs. Joseph E. Blaisdell, Mr. and Mrs. Alden Smith, Mrs. Russ Spear, Raymond Bowden, Miss Jeanette Stahl, Mrs. Esther Rogers, Andrew Coffey, John Storer and Jean Caldwell.

After the delicious banquet was served, the class speeches were given by Betty Munro and Clarence deKochment, followed by presentation of class gifts by Miriam Dorman and Herbert Ellingwood. President Andrew Coffey presided. At the conclusion of the festivities, tickets were given to all members to the performance at Park Theatre.

The committee in charge was composed of Dorothy Trask, chairman, Norma Philbrick, and Miriam Dorman, with Miss Stahl as faculty adviser. Excursions and place cards were made by William Burns and Sheldon Billings.

Mrs. Gatecombe's Sophomore English class, division 1, has published a literary magazine called the "Sophomore". Each member of the class contributed either a poem or story, the best being chosen for the final edition. Editor-in-chief was Richard Stevens and the cover was designed by Pauline Haveren. So far as is known, this is the first magazine ever to be published in R.H.S. by an English class, and the excellence of its contents deserves much credit. The class wishes to thank the commercial department for their very valuable assistance in making the magazine possible—Betty Holmes.

The Home Economics Club held a meeting Monday for the purpose of electing officers for next year with the results: President, Vina Delmonico; vice president, Della Morrison; secretary, Norma McGrillis; treasurer, Elizabeth Sawyer. The members voted on taking the 9.45 bus as far as Thomaston and hiking to South Pond Sunday morning. The meeting was adjourned until next Fall—Vina Delmonico, secretary.

In Mrs. Coughlin's room 10-11, pupils receiving all "ones" for year. Lucille Mank; all "ones" for term, Edward Fogg, Kenneth Hartzell, Barbara Koster, Corinne Smith; not absent all year, Ruth Kelder; not absent all year, Nadine Fuller, Marion Johnson, Lucille Mank, Virginia Mills, George Morton, Helen Paul, Barbara Saunders, Edna Sherman, Corinne Smith, Arthur Dean, William Folland, David Farrand, Douglas Gerrish, Walter Glendinning, Ruth Keizer, Louise Kirk, Curtis Lindsey, Shirley Lunt, Agnes Pinkerton, Donald Snowman, Geraldine Start, Beulah Powers, Howard Marston, Robert MacWilliams, Sverwin Sleeper, Harlan Demuth, Doris Gray, Arthur Stanley, Marguerite Matthews.

Mavis Moore, freshman, brought into Science class recently a porcupine fish, which is common on the coast of Florida. She reported that it puffs up from two to three times its size when "mad" and the quills stick straight up. It is hard to catch because it only nibbles at the line, and it darts instead of swimming. The fish is the property of Roberto Sylvester.

## TENANT'S HARBOR

Five students of the Providence Bible Institute (including Douglas Auld, son of Mr. and Mrs. Gilbert Auld and a member of the local church) will have charge of the morning service Sunday at the Baptist Church. The group comprises two women and three men. In the evening they will conduct a service at the First Baptist Church in Rockland.

## SERMONETTE

**Prepare For Winter**  
**How Beautiful is Sunshine**  
This Spring has had many days of fog and rain. Many have been discouraged because of it. Why worry about the weather? Notwithstanding Mark Twain's observation, one can do nothing about it. Last Summer from the standpoint of the visitor, the weather was unusual and beautiful; but rivers shrank, lakes lowered and springs and wells failed. Economically, it was disastrous. Now they are becoming normal, therefore let people rejoice. The good water is one of God's finest gifts to man.

Christ likened His mission to a well of water, springing up, welling up to eternal life. These Spring days dark with rain, have their moments of sunshine; so in these war days of suffering, light streams through the darkness.

Isaiah told the church in his prophetic glance into the future, "Shake thyself from the dust, arise, sit down. The Lord saith the Lord, My people shall know My name. It is I that speak." How beautiful upon the mountains are the feet of him that bringeth good tidings of good, that publisheth salvation; for Thy God reigneth.

"The watchmen shall lift up the voice; with the voice together shall they sing; for they shall see eye to eye, when the Lord shall bring again peace. The Lord hath made bare His holy arm in the eyes of all the nations; and all the ends of the earth shall see the salvation of God. For ye shall not go out with haste nor go by flight for the Lord will go before thee."

Isn't that all that could be asked—courage, faith and trust in God as leader? He will go before. Let His followers then trust Him and they shall emerge in the sunshine of His love.—William A. Holman

"God the Preserver of Man" is the subject of the Lesson-Sermon that will be read in all Churches of Christ, Scientist, on June 14. The Golden Text is: "The Lord is our defense; and the Holy One of Israel is our king." (Psalms 89:18). The citations from the Bible include the following passages: "Wherefore, if God so clothe the grass of the fields, which today is, and tomorrow is cast into the oven, shall he not much more clothe you, O ye of little faith? But seek ye first the kingdom of God, and His righteousness; and all these things shall be added unto you" (Matthew 6: 33).

Rev. Charles Ellis will preach at 2:30 o'clock Sunday at the Holman Memorial Chapel at Ingham Hill. It is hoped that arrangements can be made with him to conduct services there for the remainder of the Summer.

"Children's Day" will be observed at the First Baptist Church on Sunday at 10:30. There will be a special program by the children and young people. The Church School will meet at noon, and there will be a class at 2:30. The "Word of Life" Quinter from Providence Bible Institute, and under the direction of Terrell B. Crum, will have charge of the Young People's service at 6 o'clock, and the people's evening service at 7:15. They will provide music both instrumental and vocal. Mr. Crum will give an address. It will not pay to be always asking, "Will it pay?"

Children's Day will be observed Sunday at the Littlefield Memorial Baptist Church and the pastor, Rev. C. A. Marsteller, will speak at 10:30 on "A Trained Mind and an Inspired Heart." There will be a special music by the children. Sunday school follows at 11:45 with classes for all ages. Young People's meeting at 6 o'clock with Miss Violet Gerrish as leader. At 7:15 the pastor will speak on "He That Serveth" and the choir will sing. Communion service will follow. Mid-week praise and prayer service Tuesday night at 7:30.

"The Religion of Free Men" will be the subject of Dr. Lowe's sermon at the Universalist Church Sunday morning at 10:40. Soloist Miss Lottie McLaughlin. Church school sessions and Y.P.C.U. excused for the balance of the season.

At St. Peter's Church (Episcopal) Rev. E. O. Kenyon, rector, the services for the second Sunday after Trinity are: Matins at 8:30, Holy Eucharist and sermon at 9 a. m., and Vespers at 7:30 Daily Mass at 7:30 except on Monday and Saturday.

The Sabbath School classes of the Methodist Church will meet at 9:45 a. m. and at 10:45 is the special annual Children's Day exercises with youth participating. Evening service is at 7 p. m.

Services Sunday at the Nazarene Church at Maverick square as usual. Sunday School at 10:30 a. m. with classes for all; afternoon worship service at 3 o'clock with Rev. John Ames of Union as preacher, and regular evening meeting at 7:30.

Children's Day will be observed at 10:30 Sunday at the Congregational Church with baptism of children and presentation of attendance pins as well as Bibles to the graduates from the Primary Department. Mrs. M. A. Fogler and daughter, Mary Fogler of West Rockport were recent visitors at the home of Miss Hattie A. Boggs.

## When Rockland Shoveled Out

When the late Reuben S. Thordike was mayor of Rockland, Main street became so badly cluttered with ice and snow, due to abnormal storms, that citizens responded to his call for a shovelling bee.

Third from the left is Elmer C. Davis, now real estate broker. Maybe you can identify the others. The picture was taken near the head of Tillson avenue. The sign "Rockland Building Company" will mystify many. R. M. Packard knows. How many others know what the Rockland Building Company was?

## Fame For Minister

North Haven Boy Listed In "Who's Who In Clergy"—Colby Alumnus

Rev. George Worcester Thomas, a North Haven boy, now of El Centro, Calif., is the subject of a keen character sketch in a recent issue of the "Colby Campus," the article supplied to this paper by a subscriber, Mrs. Carrie E. Paige of Washington, D. C.

Rev. Mr. Thomas resided in North Haven with his grandfather, for whom he was named, from early childhood until he entered Colby College.

## One Foot in Heaven

"Colby College has many an alumnus in the ministry, who, like the character in a recent movie, has 'one foot in heaven.' The work of Rev. George Worcester Thomas, pastor of the Presbyterian Church of El Centro, Calif., is so remote from most Colby people, however, that few outside his own classmates realize the distinction which he merits.

"The following sketch was written on request by G. C. Bennett, president of the Associated Farmers of Imperial County, who, as an elder of the Presbyterian Church, is a close associate and friend of Dr. Thomas.

"The country doctor has been glorified in fiction, in the theatre and movies. The popular plot being: Country doctor does such valuable work that he finally receives recognition from the nationally known leaders of his profession. If you would just substitute 'country pastor' for 'country doctor' and go ahead with that familiar script you would have the story of Dr. George Thomas.

"He was included in a list of 'Who's Who in the Clergy,' a list compiled from those who had contributed outstanding service in their field of endeavor. Doctor Luther A. Weigle, dean of the Yale Divinity School and writer in the field of religious education; Dr. John Timothy Stone of Chicago, noted preacher. Dr. W. L. L. Sperry of Harvard University, Dr. John A. Mackay of Princeton University and Dr. Everett C. Herrick of Andover-Newton Theological School are among those who appear with Dr. Thomas in this volume entitled 'Religious Leaders of America.'

"One of the outstanding things that Dr. Thomas has done is his work in Sunday School and among the youth of his community. He also organized the Ministerial Association bringing all Pastors together including the Catholic Priests and has welded this group into a powerful body working for the good of the community.

"I have never known Dr. Thomas to back away from an issue. To him there are no issues too 'hot' to handle. He will tackle any problem no matter how controversial with sublime confidence that the Christian philosophy furnishes an infallible guide to its solution. I have been with him when he has addressed non-religious groups with some extremely anti-religious men present and has analyzed vital and pressing problems in such a way that all accepted his Christian conclusions.

"His activities are as diverse as are the problems of this community in which he lives. He sits with the directors of the Associated Farmers of Imperial County in consultation over their gravest problems, is a favorite speaker at business service clubs, is Father to the negro population of El Centro, and was chosen by 1000 striking fruit tramps to referee a mass meeting in revolt against the tyranny of their own union.

"In all cases his work has been fearless, constructive and wise. His is the greatest co-ordination influ-

ence in this County. It is my hope that with aid of his brief, sketchy outline of his activities your imagination will enable you to fill out the picture of this outstanding character. In this time of crises, when world democracy seems to be tottering on the very brink of oblivion, and internal dissension is threatening to tear our own country asunder I assure you we are thankful to God for such a man."

## SOUTH WALDOBORO

Mrs. Esther Davis and Mrs. Stella Collamore are spending the week in Thomaston. They attended the commencement exercises, Mrs. Davis' granddaughter, Miss Esther Achorn being a member of the graduating class.

Several from this section attended the Standish-Osier wedding Sunday at the Advent Christian Church.

## Held At The Church

Annual Meeting of Universalist Mission Circle—Mrs. Lowe President

The annual meeting and election of officers of the Mission Circle of the Universalist Church was held in the vestry Wednesday.

The practice in the past has been to hold the meeting at the St. Clair cottage at Crescent Beach, but due to the present gas rationing the meeting was held at the church. Luncheon was served at noon and the members voted to continue the Red Cross sewing program through the Summer, although the regular meetings will not be resumed until Fall.

Dr. John Smith Lowe, pastor of the church, delivered the annual address, using for his topic "The Peace That Is To Be."

Mrs. Conover Fitch gave two vocal selections which were well received by the members. The following officers were elected: President, Mrs. John Smith Lowe; vice president, Mrs. J. A. Jameson; secretary, Mrs. Louis A. Walker; treasurer, Miss Therese Smith; executive board, Mrs. J. L. Sherman, Mrs. Ambrose Mills and Mrs. J. E. Cunningham.

They are now residing at 57 Pacific street in Rockland.

## WEST ROCKPORT

# Really NEED a New Car?

## Liberalized rules may let you get one

## Who is Eligible to Buy a New Car?

There are seven major classifications for persons eligible to buy new cars under basic rationing rules.

These include persons engaged in the production of war materials or in the prosecution of the war, directly or indirectly; physicians, nurses, clergymen, veterinarians; car-owners engaged in public service, such as fire departments, public health, highway maintenance etc.; owners of taxicabs and other means of transportation; and traveling newspaper wholesalers; and traveling salesmen in certain fields.

Your Buick dealer will be very glad to help you determine whether you come under the rules of eligibility. He also will be glad to help you fill the proper applications.

Don't guess about your eligibility—see your Buick dealer now and make sure.

If your work is connected directly or indirectly with the prosecution of the war, you may be eligible to buy a new car—right now.

Under newly liberalized rationing rules it is easier than most people think to replace cars now in use with brand-new, long-lived, gas-thrifty 1942 Buicks.

Maybe you can wash out worries about tire-life by starting afresh with a complete new set—tires that will last longer, if they're on a Buick, because new Broadrim wheels both ease the ride and lengthen tire-life.

Remember, the 1942 models your Buick dealer now has ready for immediate delivery were built to serve you through the duration and beyond.

They are wartime tough, durable beauties built to last, built to go a long, long way with a minimum of upkeep.

So if you're eligible, you may be money ahead getting a new Buick now rather than trying to make an old car "do."

Why not drop in, talk it over and see if the new liberalized rules do not entitle you to a new automobile now?

## The Memory Man

### Iree Member Completes His Sketch of a Versatile Pastor

(By Iree Member)

After his marriage at the age of 20, as per my last sketch, the life of Rev. C. O. Farnham has been a very busy one. Besides his many pastorate—which will be mentioned later—he taught Homelitics, Hermentics and Isogonics at the New England School of Theology for several years and was a Regent of

railroads and carriers, by airplane or motor vehicle, and torpedoes customarily used by railroads, for signaling purposes.

"Compliance with other laws. Nothing in these regulations will permit the manufacture, sale, possession, or use of any explosives, ingredients, fireworks, or signaling devices prohibited by local or State laws or by any other Federal law, regulation or order."

the school for many years—30, to be exact.

He served as Eastern Representative of Oskaloosa College for several years and was a member of the board of directors of Aurora College for a long time.

During the years which followed he served as president of the Massachusetts Advent Christian Conference, vice president of the General Conference of America, eastern superintendent of Advent Christian Churches, president of the American Advent Mission Society and later secretary and treasurer of same—conducting Mission Work in the United States, Canada, China and Japan. His main office was in Boston, but he traveled extensively in addition to his work in the office.

He was also secretary of the National Council of Home Missions, president of the Alton Bay Camping Association for the past 20 years—which position he still holds and, as this is the largest organization of its kind in New England, it

takes a great deal of time and work.

He is also chairman of the Massachusetts ministerial committee for the examination, licensing and ordination of ministers, vice president of the Advent Christian Publication Society of Boston, corresponding and joint editor of 'The World's Crisis'—a Denominational Weekly which has a tremendous circulation.

He is also a member of the board of directors of the Vernon Home Corporation—a home for aged ministers and their wives or widows.

Also, secretary and treasurer of the Springfield Minister's Association and director of Religious Education for the Springfield Railroad Y.M.C.A. besides serving on the board of directors of the State Federation of Churches in Massachusetts.

He also served as president of the S. S. Union of Advent Christian Churches and vice president of the General Eastern Loyal Workers society.

Even this long list is not complete. I am not equal to the task of giving a complete list of the activities of this exceedingly active man. Nor can I even estimate the good his service in his chosen work has brought to the world, but, of one thing I am sure, his dedication to God's work by his mother was not in vain and many lives have been enriched by contact with this man whose whole life has been spent "In the Vineyard of the Lord."

I will say in passing that many of the above official positions ran concurrently part of the time, overlapped some of the time—meaning that all of these positions were not held at one and the same time. That would, of course, be well nigh impossible.

Besides all the activities mentioned above, he has been pastor of many Churches. I think his first pastorate, after he left Maine, was in Plymouth, Mass., at the age of 20, where he was located several years. Following this he was pastor in Woonsocket, R. I., Portsmouth, N. H., Lynn, Mass., Boston, Springfield, Somerville, Worcester, and now serving a second time in Springfield, Mass.

He has received calls to serve as pastor from Pasadena, Calif., Los Angeles, Oakland, Calif., Seattle, Washington, The College Church, Aurora, Ill., and many other places. Due to his love of New England and a desire to live here, calls from distant places were refused.

He has held many Evangelistic services at campmeetings, individual churches and union services for several denominations in many different localities and these speaking engagements have taken him into Quebec, Nova Scotia, all the New England States, the Middle West, the South and all along the Pacific coast from San Diego, Calif. to Sumas, Wash.

He is the author and publisher of thousands of pamphlets, tracts, etc. which have been widely read, is the author, words and music, of more than a dozen hymns which have become popular and are sung from coast to coast.

I believe his most famous song is "Thank God I Can Pray." This is a beautiful composition and the musical setting is in artistic keeping with the words. Charlie possesses a rich, musical voice (even as when a child) and his singing is almost on a par with his preaching—and, I make bold to state that he is a powerful and brilliant speaker.

Could you hear him speak as I have

### HAIL THE MARINES!

Pvt. Daniel Noonan who is stationed at Parris Island, S. C., has a bunkmate by the name of Philip Evans of Ashland, Ky. who expresses his sentiments about the Marines in these words:

You can have your Army khaki. You can have your Navy blue. But there is still another fighter. His uniform is different.

The best you've ever seen: The one that's sure as a dog. But his real name is Marine. He trained on Parris Island.

And the sun is scorching hot. And the sand is 14 inches deep. He has set up many a table. And many a dish he has dried. He also learned to make a bed in a brown leather can guide. He has peered a million onions many times.

He spends his leisure moments washing out his duds. Now girls, take a friendly tip: I'm telling it to you.

Just get yourself a U. S. Marine. For there's nothing he can't do. And when he gets to Heaven To St. Peter he will tell: "Another Marine reporting. Sir! I've served my time in hell."

I know that you would agree, heartily.

I have been privileged to play violin solos in four different churches where he was pastor—Boston, Worcester, Alton Bay and Lakeside—and on every occasion I marveled at the man and the sermon—once the "Boy Preacher," now the highly educated, finished speaker who swayed his listeners with every word he uttered. He carried his listeners with him into the vale of tears, he lifted them to the mountain top; he made them rejoice with him, weep with him and go hand in hand with him from the thorny path of the pilgrim's life to the land of glory just ahead.

Charlie has conducted religious services on the air over stations WBZ, WNAC, WEEI, WHEB and several other stations in several parts of the country.

He never asked for a pastorate or other position but has been obliged to decline more calls than he could possibly accept.

He has been in great demand as a speaker at patriotic gatherings, where large throngs listened to him and has been a frequent speaker in People's Temple, in Boston. Many of his audiences numbered 3000 to 5000 as I can testify, personally, and his message was heard by all without any shouting by the speaker.

When Sir Oliver Lodge was in this country Rev. Mr. Farnham challenged him to a debate on Spiritualism. Four thousand people turned out to hear the debate, after seeing the challenge in the Sunday papers, but Sir Oliver failed to show up, much to the disappointment of the people—and Charlie.

When Clarence Darrow spoke on Atheism at Mechanics Hall in Worcester, Mass., Dr. Farnham challenged him to debate the subject with him and even invited him to his own church (The church where Charlie was pastor) to debate, but Mr. Darrow declined to meet Rev. Charlie. I wonder why?

A brilliant mind, a life devoted to the service of the great Master. I could write much more about this good servant of God but will close with the hope that my brief sketch will fill some heart with courage to struggle on in life's battle. Rev. Charles, we salute you!

## CHRISTIAN SCIENCE ANNUAL

### Its Great Task "To Work Out Freedom Of World From Slavery"

MRS. ELISABETH F. NORWOOD  
Incoming President of The First Church of Christ, Scientist, in Boston, Massachusetts

The great task now confronting a liberated America, which more than three-quarters of a century ago fought a four-years war to free the slaves, is to aid in working out the freedom of the whole world from slavery.

The Christian Science Board of Directors told several thousand Christian Scientists gathered in annual meeting in Boston Monday.

The Directors pointed out that "through the ages tyrants have endeavored to govern and control men by engendering fear," and quoting from Mary Baker Eddy's work, "Miscellany" (p. 191), they further said, "Persecution is the weakness of tyrants engendered by their fear, and love will cast it out."

Meeting in their Mother Church under world-enveloping shadow

of what is probably the gravest threat to political and religious freedom since the advent of Christianity, the visitors were reminded in a report by The Christian Science Board of Lectureship that the union of Britain and America was foreseen 44 years ago by Mary Baker Eddy. Discoverer and Founder of Christian Science, as the instrument through which the rights of free peoples everywhere might be permanently established and protected.

This wedding together of the two great democracies, under the impact of an international crisis, said the Lecture Board, is the consummation of the fond hopes of all Christian Scientists.

"God has built a higher platform of human rights, and He has built it on diviner claims. These claims

are not made through code or creed, but in demonstration of 'on earth peace, good-will toward men' " (Scriptures, p. 226).

The Directors announced the election of Mrs. Elisabeth F. Norwood of Brookline, Mass., as president of The Mother Church for the ensuing year. The chief duty of the president is to preside at the annual meetings.

The new president is the daughter of Isaac Paul Gragg, who served throughout the Civil War and was given the rank of Captain by Brevet for gallant and meritorious services. Her mother, Mrs. Eldora O. Gragg, O.S.D. was one of 12 students of Mrs. Eddy's chosen by her to form The Mother Church. She was also the first woman Reader in the Church.

To the incoming president the times appeared to constitute a challenge to Christian Scientists to face unflinchingly "a duty beyond anything they have ever before been called upon to face." Yet in the face of this duty, she said, there is the authority of the Bible that "the Lord's hand is not shortened that it cannot save" and that "Christ's Christianity will free mankind from the bondage in which it is being held."

John Randall Dunn, retiring president, referred to the times as an opportunity to prove that "the healing Christ is here, and that the light of Truth not only banishes the darkness of disease and sin, but can nullify all the hypnotic suggestions of the carnal mind, which seem to be working such mischief among the sons of men."

The report of the Board of Lectureship, read by Galvin W. Allan, referred to the recent statement of Winston Churchill, Prime Minister of Great Britain, "Never in the field of human conflict was so much owed by so many to so few," as a perfect phrasing. But lifting this phrasing out of the setting of war, the Board felt that it could aptly apply to Mrs. Eddy and her small group of followers who, a half-century or more ago, worked for the establishment of a vision that sought to bless all mankind.

Arthur W. Eckman, Manager of Committees on Publication, reported that service in the armed forces is bringing many young men closer to Christian Science, because of its adaptability to their immediate problems. The radio continues to minister the healing truth to an ever-widening audience, said Mr. Eckman, and is bearing in growing measure the fruitage of physical healings.

The report of the treasurer for the fiscal year ending April 30, 1942, showed that the finances of The Mother Church were in sound condition, that aside from current bills and accrued taxes there was no indebtedness.

### SAFEGUARD YOUR TELEPHONE

Keep it where it won't be knocked over, dropped or struck.... It contains over 200 parts, some easily broken and made from materials now difficult to obtain.

### KEEP TELEPHONE CORD UNKINKED AND DRY

This cord contains very fine copper wires. Kinking the cord may break these wires. Remember: copper is scarce. Protect the cord from water that may cause a short circuit.

Care also saves repair calls.... AND TIRES WHICH WE MUST CONSERVE, TOO. Calls for repairs often mean tire wear. Your Telephone Company, like every other truck user, is limited in its use of tires. Your carefulness can save tires and other strategic war materials.

## WASHINGTON—AND YOU

By Margaret Chase Smith

Washington, June 10 — Persons having property which they think might be of value to the Government and who are willing to sell should write to the Chief of Engineers at Washington where the data will be filed for reference. If any Federal department should want property of that kind, the Chief of Field Space Control under the Public Buildings Administration makes purchases when authorized by Congress. Property should not be offered unless the owner feels it really can be of direct service to the war effort. It might also be advisable to write to the Commanding Officer, Army Base, Boston, in regard to available property.

A man who breeds German cheepers wrote to say that he would like to sell to the Army. I find that "Dogs for Defense," 590 Madison Avenue, New York City, buys all dogs for police and watch dog purposes for the Quartermaster Corps and inquiries on this subject should be directed there.

During one of my recent trips home I discussed fish hatcheries in our District with Superintendent of Hatcheries, Gerry Wade, especially the sea salmon experiment in George River and the whitefish hatchery in the Fish and Wildlife Service of the Department of the Interior.

There are more ponds and lakes in the Second District than in any other District in the Northeastern Section and it is believed that they are well suited to bass. There are two hatcheries for trout, East Orland and Salem, but none for bass. In reply to my request of the Interior Department to consider a "bass project" in the Second District, I am told that there is some question as to whether the stocking with bass is capable of producing any real improvement in fishing. One theory is that even a moderate native population of bass in a pond or lake will produce by natural propagation such a large number of young that hatchery stocking will be relatively insignificant. Other authorities feel that there should be some facilities for propagating bass in order to take care of special needs.

In our case, because of shortage of materials and curtailment of appropriations, the development of bass ponds is being held in abeyance and work on several hatcheries scheduled to be established has been suspended because materials are practically unobtainable and even some in operation for years have been closed down because of insufficient funds. The

general policy is to refrain from advocating any fish hatcheries during the war.

There is good news for those who mean to put up their cars during the shortage of rubber and gasoline—the Bureau of Internal Revenue says that the "use tax" of \$6 need not be paid on an unused car. If the car is later brought into use before the expiration of the tax period which begins July 1st, then the use tax for the remaining portion of the year must be paid. A Knox County constituent wrote to ask if the use tax had to be paid on unused cars and suggested that the imposition should be delayed for a month or two until people decided whether or not they would be able to run their cars.

From Kennebec County comes an interesting letter protesting against compulsory evacuation of American citizens of Japanese ancestry from the West Coast. Moves like this create distrust among our racial minorities and are more like Nazi Germany than the United States, he said.

I regret the necessity of these evacuations but we are at war and must guard against every possibility of internal trouble while we are fighting abroad. This country has been a melting pot for many nationalities and I am looking forward to the time when the war is over and we can go back to our normal way of living.

All of our coasts have been made military areas. This does not mean martial law which supersedes the civil courts, but does mean that our military and naval chiefs can take steps they feel necessary for the protection of all of our coasts. Submarines are coming very close to our shores. It would be very easy for a traitor, citizen or alien, to convey valuable information to help a landing. The Government is responsible for preventing this from happening. If they feel the removal of certain persons, alien or citizen, from the coasts is necessary, we must accept their judgment. Also, sabotage is a constant danger.

We should be sure that the persons so removed are given every consideration. I have gathered all of the information that I can about the treatment of the Japanese moved into the interior from the West Coast and I believe every effort is being made to furnish them with necessities for simple but adequate living. They are permitted to have a voice in the running of the camps and are paid a small monthly sum of money in addition to their subsistence.

## For Home Canning

## The Conditions Under Which Sugar May Be Obtained For That Purpose

The Office of Price Administration has taken steps to conserve the nation's fruit crop through the issuance of a new sugar rationing regulation which will permit persons who do home canning to obtain sugar in proportion to the amount of fruit canned.

Under the new regulation, home canners may obtain one pound of sugar for every four quarts of finished canned fruit, and an additional pound of sugar for each member of the family unit for the packing of preserves, jams, jellies and fruit butters.

The previous regulation permitted each person to obtain a total of five pounds for home canning. If this amount has already been used, it must be computed in any new home canning sugar allotment.

"The present regulations place a great deal of responsibility upon individual citizens on whose integrity and good faith I am certain we can depend," Mr. Henderson said. "We are making every effort to make available as much sugar for home canning as possible since consumers are expected to do more home canning than in previous years.

"Home canning contributes to the war effort not only by conserving fruit which might otherwise be wasted, but also by supplementing commercial supplies it helps to reduce the burden upon the nation's transportation facilities."

Consumers wanting to take advantage of this new regulation may make application to their respective local rationing boards.

## IN THE PUBLIC LIBRARY

Ruth L. Rogers, Librarian

Every weekday: 9 a. m. to 8:30 p. m.

The last story hour before the Summer vacation was held at the Library Friday afternoon with 82 children present. Stories were told by Mrs. Crawford Gatecombe, and the play "The Fisherman's Wife" was dramatized with the following cast: Fisherman, Cedric Long; Fisherman's wife, Mary Libbey; Fish, Bradford Sleeper; Servant, Richard Dyer.

The Vacation Reading Club for boys and girls will open Monday June 15th. The club this year will be different from any we have ever had before. It is to be called a "Victory Reading Club." Each member will be given a pin, showing that he has joined, and as each book is read the word "Victory" will be made. The V will be a large blue letter, and the smaller letters red, which will be mounted on a white background suitable for framing. A list of the books read during the Summer will be printed on the back. Don't forget the library during your summer vacation, and remember that when it is too hot or rainy for outdoor play, the library is always cool and some of the happiest days of your vacation can be had with a book.

Some of the new books added: Until the day break by Louis Bromfield.

While the laughter of "gay Paree" gave way to the thunder of German soldiers, Roxie Dawn, American dancer, decided to continue her career in her adopted country for the sake of her French lover. But a swift change of events of ever mounting tension finally led her to accept her part in the underground movement. A dramatic, stirring story. Past Imperfect by Ika Chase.

A witty autobiographical book, by Ika Chase, star of unnumberable plays, movie actress, and radio success. It is an entertaining and informal story by a woman who has been tremendously successful in spite of a heavy social background. You will enjoy this delightful autobiography.

Cross Creek by Marjorie Rawlings. The book itself is the story of Cross Creek, of its people, its scenery and wild life, told by a writer with a genius for character portrayal and description. Here are brilliant and fascinating descriptions of the Florida scenery, and of the animals and reptiles of the region. The book has all the charm and appeal of "The Yearling" plus the fact that there are real people, headed by the author herself.

Coffin, Robert P. Tristram. There will be bread and love is a book of 60 or more poems telling

ing of country experiences, the pleasures of being a boy among boys, life on a Maine farm, haying, bonfires in Autumn and fishing. They will be enjoyed by readers of Robert P. Tristram Coffin.

The Killer and the Slain by Hugh Walpole. A curious and powerful novel, a skillful study of the dual nature of man. John Talbot, an intellectual man who wrote unusual novels, and James Tunstall, a successful portrait painter, who seemed on the surface as different as any two people could be, yet there was something in these two which bound them together, so much so that when Talbot killed Tunstall he killed himself as well.

A clever psychological novel of the Dr. Jekyll and Mr. Hyde genre, blending horror, suspense and romance. Washington is Like That, by W. M. Kiplinger.

Probably the most important city in the world, certainly one of the most exciting, is here presented by the author of the famous Kiplinger Washington letter. It is filled with revealing details, packed with sharply etched personalities, and illuminated on every page with a recognition of what Washington means to a United States in total war.

Sweets without Sugar by Marion White is a timely little book containing over 200 recipes, everyone carefully tested, of pies, pastries, desserts, preserves, etc., made with sugar substitutes. A book not alone for our present emergency, but one of permanent value, because the substituted ingredients have greater nutrition value and less calorie content than sugar.

Books of the lighter type: The corpse with the eerie eye by R. A. J. Walling. Soft as silk by Jean Randall. Calamity town by Ellery Queen. The man who changed his plea by E. P. Oppenheim. Highway to heaven by C. H. Matschatt. Young John takes over by Elizabeth Jordan. All sails set by E. A. Holton. Fight for Powder Valley by Peter Field. Gold and guns on Halfday Creek by James Hendryx. Gunsmoke trail by E. B. Mann. Riddle of Ramrod Ridge by Wm. C. MacDonald.

ST. GEORGE COOK-NARDONE

Granville Cook, formerly of this town, was married Saturday in Revere, Mass., to Miss Anna Nardone of Revere by Rev. Fr. Daniel Tagliacarne at the Catholic rectory. The bridesmaid was Miss Grace Puleo of Revere and the best man was the twin brother of the bride, Fred Nardone.

The bride was dressed in white tulle with lace and carried white roses and sweet peas. Her attendant wore pink, with a bouquet of red roses.

Following the wedding, a reception was held at the home of the bride attended by the families and immediate friends.

Mrs. Cook attended Revere High School and has been employed in Boston. The bridegroom is a sheet metal worker at George Lawley & Son Corp. shipyard in Neponset, Mass.

Following a wedding trip to Long Cove, the former home town of the bridegroom, the couple will reside at 77 Main Street, Malden, Mass.

## Agriculture

A great deal of interest was shown in the mowing machine demonstration held by M. G. Huber, Agricultural Engineer of the Extension Service. At North Nobleboro, the demonstration was at Wallace Spear's farm. There were machines of Wallace Spear, Arthur Hall and Howard Sprout. William Bryant, Danversville Mills, said he had already overhauled his after attending the meeting held at Roy Genthner's, Nobleboro, in May.

In Whitefield the demonstration was at the farm of Fred Law, Whitefield. Machines of Mr. Low and Harvey Bailey were overhauled.

In Hope, a demonstration was held at William Hardy's in connection with a 4-H club meeting. One machine was overhauled.

Pasture Improvement work is showing results. Howard Sprout of North Nobleboro, got five days of feed for 11 cows off a quarter acre of winter rye. He also is getting wonderful results from two plots of ladino clover.

Wallace Spear of North Nobleboro, reports 10 days feed for 14 cows from a fertilizer acre.

Ellis Moody and Roy Brown, North Nobleboro, and Arthur Hall of Jefferson, also report good results with their pastures.

G. A. McLaughlin, farm management specialist, will meet this week with the newly appointed neighborhood leaders in Hope. He will

discuss the recent government rulings that affect farmers. Meetings will be held later in other communities of the county.

## With the Homes

Mrs. Charles Lord, foods leader of the Camden Farm Bureau, was in charge of a meeting recently on More Milk for Maine families. This comprised the last two lessons of the Extension Nutrition course. At the business meeting it was voted to buy \$1 worth of war stamps.

"More Milk for Maine Families" was also the subject which was presented to the Orr's Corner Farm Bureau on June 2, by Lucinda Rich, home demonstration agent. Twenty-seven women were present. Sixteen women will receive certificates for having attended all six nutrition lessons. Dinner was served at noon by Mrs. A. D. Gray and Mrs. Harriet Sprout.

Mrs. Alice Baker of Woolwich entertained the Montsweag Farm Bureau Thursday, June 4. The home demonstration agent was present to conduct the meeting on More Milk for Maine Families and to discuss other matters of importance including the canning program for this summer. Florence Wallace, Edith Rice, and Alice Baker served the square meal at noon.

At Farm Bureau met. Friday, June 5, and "Aids in Clothes Buying—Cotton and Its Uses" was the subject presented. Mrs. Violeta Reed,

Mrs. Ella Erskine, Mrs. Helen Erskine and Mrs. Christina Adams served the dinner. The next meeting will be a picnic at Mrs. Violeta Reed's home.

## 4-H Club Notes

M. G. Huber, agricultural extension engineer, gave a demonstration on "The Repairing and Adjusting of Mowing Machines" for the Hatchet Mountain 4-H boys at Hope, June 3.

The Singing Sewing and Amateur Farmers 4-H clubs of Westport gave several demonstrations at the local Grand meeting, June 1. Walter Andrews and Herbert Hurme gave a demonstration on "Transplanting"; Daniel Andrews and Henry Kontio, Jr., "Canning and Grading of Eggs"; William Annis, "Insect Control"; Charlene Heald, "Cocoa Syrup"; Nancy Andrews, "Making a French Seam."

The Chewonki boys of Wiscasset met June 3, at the home of their leader, Percy Hodgson. The boys learned how to keep their record sheets.

The Georges Valley boys of Warren learned how to make markers at their meeting, May 29. Mrs. Eare Moore, assistant leader of the club was in charge.

The Happy-go-Luckies girls club of Warren are selling war paper to earn money for the club. At a meeting, May 28, at the home of their leader Mrs. Ralph Crockett the girls studied the "Nutritional Value of Cereals."

serve a supper, June 19 after the meeting. The worthy matron requests the officers present to start the meeting at 7:30 sharp.

## From Colorado

## Comes a Rockland Soldier's Letter—Finds Nice People There

The following extracts are from a letter received by Mrs. Gladys Heistad of Rockport from her nephew, Pierre L. Haverer, Jr. of Rockland, who is with the Fifth Mapping Squadron, Army Air Base, Colorado Springs, Colo.

"There are many interesting things here to write about, and the people are just tops." They give us dances, shows, etc., and take us for swell rides in the mountains, invite us to lunches, rides, and picnics. This place is heaven to a soldier!

About 50 of us went to a very interesting place the other night. We went to a play, put on by the Drama Club and presented at the Art Center. The play was done very nicely, and I enjoyed it a lot. It was "The Philadelphia Story." However, this was not all, as afterwards we were journeyed to the foyer and were served refreshments, met the players and other members of the club also the directors of the Art Center and other prominent people.

"The Art Center is a building to behold. It was given to the city by a millionaire—and I am quite sure he must have had more than one million! The place is of modern design and includes an Art Gallery, Studios, Museum, Laboratories, Vaults, etc. The theatre is in the center and resembles the theatre in Waldoboro, although much better. I visited the Art Gallery. Two pictures interested me particularly. They were painted by a French artist named Cernuschi. It was wonderful to be able to see all of these things and to meet the nice people there.

"The building was designed by an artist who came to this place for his health. While he was here he began to make architectural designs, and the completion of this Art Center made him so famous that he is now one of the best known in his business. The director is a man named Robinson. He has a long white beard, and is very pleasant to talk with. He runs the place in conjunction with the Colorado College, thereby enabling many students to learn art, music, drama, photography, and what-not."
